

# New Digests and Application Notifications Will Boost the Way You Work

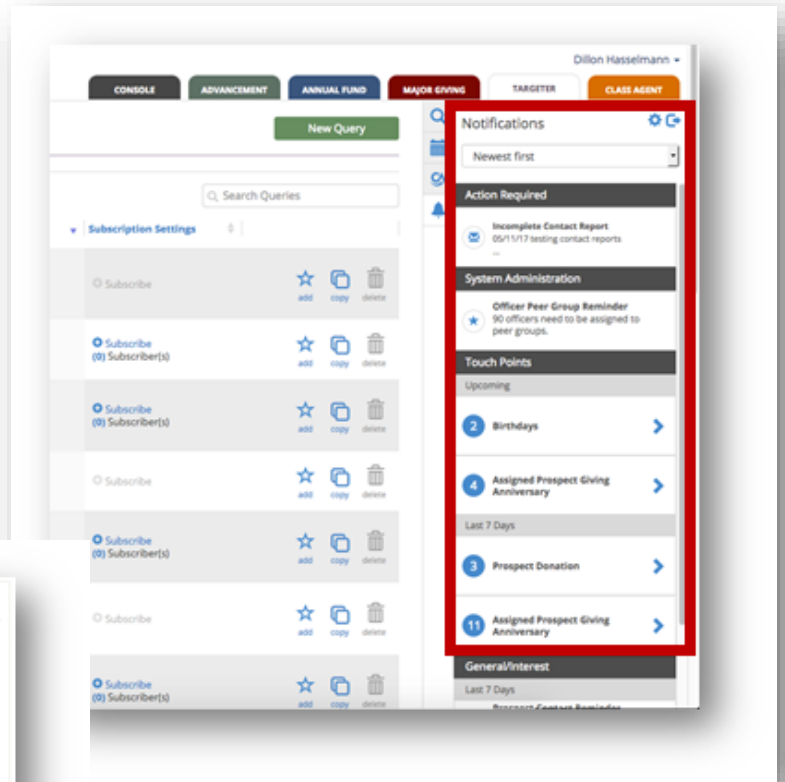

Reeher is helping improve the way you work by making our current email notifications more accessible and always within reach. Whether you are in the Reeher Platform or accessing email, important notifications will now be at your fingertips.

## How Does It Work?

We have created a new experience that delivers our previous email notifications both in the Drawer area of the Platform (highlighted in Red) and through daily and weekly email digests.

The Notifications found in the Reeher Platform allows you to view all notifications, including birthday reminders, milestones, and Activity Center updates, in a single location on every page throughout the Platform.

The new format for email notifications will be sent in the form of daily and weekly digests that include all of the previous email notifications rolled up into one email send daily, weekly or both. This helps keep better track of important dates with fewer emails as well as a way to keep a pulse on your notifications if you are away from the Reeher Platform.
